

# WAYNE YU WANG

Department of Statistics, University of Michigan  
323 West Hall  
1085 South University  
Ann Arbor, MI 48109

*tel:* 734.277.5499  
*web:* ywa136.github.io  
*twitter:* @wayneywang  
*email:* wayneyw@umich.edu

---

## Education

2022 (expected)	Statistics, University of Michigan (Advisors: Profs. A.O.Hero and Y.Chen)	Ph.D.
2018	Statistics, University of British Columbia (Advisors: Profs. J.V.Zidek and N.D.Le)	M.Sc.
2016	Actuarial Science, Simon Fraser University	B.Sc.

## Research Interests

High-dimensional inference; Graphical models; (approximate) Bayesian inference; Generative models for spatio-temporal processes; Applications in natural sciences

## Publications

- Wang, Y., & Hero, A. (2021). Sg-palm: A fast physically interpretable tensor graphical model, In *Proceedings of the thirty-eighth international conference on machine learning*.
- Wang, Y., Hougen, C., Oselio, B., Dempsey, W., & Hero, A. (2021). “A geometry-driven longitudinal topic model”. *Harvard Data Science Review*. <https://doi.org/10.1162/99608f92.b447c07e>
- Wang, Y., Le, N. D., & Zidek, J. V. (2021). “Approximately optimal subset selection for statistical design and modelling”. *Journal of Statistical Computation and Simulation*, 1–13. <https://doi.org/10.1080/00949655.2021.1900182>
- Wang, Y., Le, N. D., & Zidek, J. V. (2020). “Approximately optimal spatial design: How good is it?” *Spatial Statistics*, 100409. <https://www.sciencedirect.com/science/article/pii/S2211675320300038>
- Wang, Y., Jang, B., & Hero, A. (2020). The sylvester graphical lasso (syglasso), In *Proceedings of the twenty-third international conference on artificial intelligence and statistics*, PMLR. <http://proceedings.mlr.press/v108/wang20d.html>
- Casquilho-Resende, C., Le, N. D., Zidek, J. V., & Wang, Y. (2018). “Design of monitoring networks using k-determinantal point processes”. *Environmetrics*, 29(1), e2483. <https://onlinelibrary.wiley.com/doi/full/10.1002/env.2483>

## Presentations

### Contributed presentations

- Wang, Y. (2021). Gaussian graphical models for active region modeling and flare prediction, In *Joint statistical meetings (jsm) 2021, seattle, wa*.
- Wang, Y. (2021). A geometry-driven longitudinal topic model, In *2021 symposium on data science and statistics*.

- Wang, Y. (2020). Sylvester graphical models for complex spatio-temporal processes, In *The 4th annual review for the aro-muri: Adaptive exploitation of non-commutative multimodal information structure*, ann arbor, mi.
- Wang, Y. (2020). The sylvester graphical lasso (syglasso), In *Joint statistical meetings (jsm) 2020*, philadelphia, pa.
- Wang, Y. (2020). The sylvester graphical lasso (syglasso), In *Aistats 2020*, palermo, italy.
- Wang, Y. (2018). Uncertainty quantification for minimum and maximum temperature forecast, In *Joint statistical meetings (jsm) 2018*, vancouver, canada.
- Wang, Y. (2018). Determinantal point processes with application to spatial design, In *The 46th annual meeting of the statistical society of canada (ssc) 2018*, montreal, canada.
- Wang, Y. (2017). Determinantal point processes with application to spatial design, In *Sfu/ubc joint statistics seminar*.

### Invited presentations

- Wang, Y. (2020). A scalable tool for longitudinal twitter analysis: Understanding the impact of covid-19 on public discourse, In *Covid-19 data science research special webinar series*, michigan institute for data science, ann arbor, mi.

## Teaching

### Teaching Assistant

University of Michigan | Department of Statistics

- |      |  |
|------|--|
| 2020 | STATS 551: <i>Bayesian Modelling and Computation</i><br><i>Description:</i> Graduate-level introduction to Bayesian inference.<br><i>Course materials:</i> <a href="https://ywa136.github.io/teaching/stats551_2020Winter">ywa136.github.io/teaching/stats551_2020Winter</a>   |
| 2019 | STATS 306: <i>Introduction to Statistical Computing</i><br><i>Description:</i> Senior undergraduate-level introductory statistical computing course based on the R programming language.<br><i>Course materials:</i> <a href="https://ywa136.github.io/teaching/stats306_2019Fall">https://ywa136.github.io/teaching/stats306_2019Fall</a> |
| 2019 | STATS 426: <i>Introduction to Theoretical Statistics</i><br><i>Description:</i> Senior undergraduate-level introduction to theoretical statistics.   |
| 2018 | STATS 250: <i>Introduction to Statistics and Data Analysis</i><br><i>Description:</i> Junior undergraduate-level course in applied statistical methodology for data analysis.  |

University of British Columbia | Department of Statistics

- |      |  |
|------|--|
| 2017 | STATS 251: <i>Introductory Probability and Statistics</i><br><i>Description:</i> Introductory statistics and probability course for junior undergraduates major in statistics. |
| 2016 | STATS 200: <i>Elementary Statistics for Applications</i><br><i>Description:</i> Introductory statistics course for junior undergraduates major in arts and social sciences.    |

## Awards, Fellowships, and Honors

2018 - 2019	Department of Statistics Fellowship, UMich
2018	International Doctoral Fellowship, UBC. (Declined; <b>Five year \$35,000 per year fellowship awarded to the top 15 admitted international doctoral students across the university.</b> )
2017	Travel Award for CBMS Regional Conference on Spatial Statistics.
2016	Statistics & Actuarial Science Endowment Award: Academic Merit, SFU. ( <b>Awarded to undergraduate student with the best academic performance across the department in the academic year.</b> )
2015	VP Research - Undergraduate Student Research Award, SFU. ( <b>Awarded for the research project “Robust program for automated statistical imputation of the Alzheimer’s Disease Neuroimaging Initiative (ADNI) data”.</b> )
2014	April Allen Memorial Undergraduate Scholarship, SFU.
2014	President’s Honour List, SFU.
2013 - 2016	Dean’s Honour List, SFU.

## Services

Reviewer for AISTATS 2021, PLOS ONE, Communications in Statistics - Theory and Methods

## Technical Skills

**Programming Languages:** Python, JAVA, R, Julia, MATLAB • **Tools:** Hadoop, Spark • **Cloud Services:** AWS, GCP
